Keys to Successful Goat Management

Presented by Dennis Thibeault, DVM
Green Valley Veterinary Services, LLC

When: Saturday February 4, 2012. 2:00-4:00 p.m.

**Where: Putnam Library. 225 Kennedy Drive, Price
Chopper Plaza, Putnam CT**

Dr. Thibeault will be discussing nutrition and how proper feeding and management are the keys to your animal's health. He will explore the interrelationship of nutrition to successful milk production, healthy kids, parasite control, bloat prevention, healthy feet, and avoidance of late gestation problems such as pregnancy toxemia. Open discussion will be encouraged.

A brief review of goat care guidelines will be covered to supplement the detailed handout that will be provided.

Dr. Thibeault brings his 17 years of goat experience to share with experienced farm owners and those just interested in learning more about these unique animals.

Please respond with your desire to attend to docdennis@peoplepc.com or 860-974-9017
